A. READING COMPREHENSION

It all started about two years ago. In those days, things were very different, I was overweight. I used to smoke a lot, about 30 cigarettes a day. I never did any physical exercises. I used to stay home all day. I never went to the fresh air except to do shopping. And even the I take car.

One day, I looked at myself in the mirror. « I looked terrible. » I tried to touch my toes. I couldn't do it. I found an old dress. I couldn't put it on, it was too small. Or rather I was too fat. The next, I tried to do a little jogging. At first, it was terrible, I mean, I just couldn't run, not even a short distance. And at first people used to laugh at me. « Why are you running? Are you in a hurry ? » They shouted.

But now, I've completely changed the way I live. I've stopped eating meat and I've started eating more fresh vegetables. My husband and daughter have started that too. At first, they did not like the new food. But they've changed. About six mounths ago. I sold my car and bought a bike. Recently, I've started doing yoga exercise. My husband often goes cycling with me now, and my daughter jogs with me in the evening. They've both lost weight and are much healthier than they used to be, too.
